

Letter XXI. At the recent death of your father, I was very sorry to hear of it, and I hope you will be able to find some way to comfort your mother. I have been thinking of you very much lately, and I hope you are well. I have been very busy lately, but I have managed to find some time to write to you. I have been thinking of you very much lately, and I hope you are well. I have been very busy lately, but I have managed to find some time to write to you. I have been thinking of you very much lately, and I hope you are well. I have been very busy lately, but I have managed to find some time to write to you.

Letter XXII. I received your letter of the 10th, and I was very glad to hear from you. I have been thinking of you very much lately, and I hope you are well. I have been very busy lately, but I have managed to find some time to write to you. I have been thinking of you very much lately, and I hope you are well. I have been very busy lately, but I have managed to find some time to write to you.

for the whole country seeing how well behaved these dogs are, plainly understand, that it is not enough for man, merely to know his parents, love his offspring, and obey his master, so much dogs are also able to learn ^{the} man much more, worship god and take care of his soul. This cleanness of my dogs it is, they the mandarins brought forward an accusation against them. These dogs ^{do} not follow me on the day of the obsequies only, but always accompany me; they never run before, but always follow their master, like a servant, and never dare to bark or bite at any, not even on a fellow dog. The whole country knows this, & therefore admire these dogs. How can the vice governor general say the dogs ran and bit people? I am the leader of this country, the ruler of propriety have to proceed from me, my aims are dispersed among the people (you) I walk humbly among them like Confucy, I teach the ignorant populace, how they may obtain everlasting life. with the only exception of the mandarins and those implicated in the affair of the theft, the people of Loosoo praise our conversation and religion; how say our dogs ran and bit people! It will be the duty of the vice governor general to send those who are bitten (if any are) into our house, we have medicines to find out where a wound was. And now as a mandarin has spoken falsehood, and sullied his official seal, I Peteling, the Father of Loosoo, once more establish the original charge, and though I forgive the country, I don't forgive the guilt of the mandarins.

Nov. 25th 1847.

Letter XXIII. In the two years of our residence here, with exception of the stolen money, we have lost nothing from the articles in daily use. But on the 10th Jan. a great silver soup spoon under the care of (the servants) Aranga and Haberd, washed and put away by them, is lost, and though we looked about for it the whole of the 17th it could not be found. I think the two men are honest people & forgive their negligence. The matter is also a trifle, scarcely worth reporting, but apprehensive, that possibly a greater loss may afterwards happen, and the mandarins might complain of not having been timely informed, therefore I respectfully mention this case.

Letter XXVIII

... I received a message, to say, the letter of the Vice Governor General
 will be allowed and... but still he allowed... did not yet arrive,
 although I anxiously wait for it, as the letter has importance, for, first I
 really fear an European ship may arrive, once it must arrive, and then
 I shall feel it difficult to intercede (if Government did not first by pardon) and I by I
 have given the... my promise (provided the despatch in
 question be allowed) to be at the entertainment which he wished to give
 me at this office (the Hung-tsun) and I should not like to break my
 agreement. Indeed, I humbly conceive, the despatch can be easily allowed,
 for the (objectionable) expressions: The Dogs Driven (to right & left to bite the people
 and "There were neither stick or stone or beating" are manifestly allusions,
 into which the Vice Governor General was betrayed by the deception of
 the overlookers. Let Government now lay the fault on these, and accordingly
 mind the despatch. Would this not be well done? - Passing an early
 answer on this repeated request, I am,

(April 5th 1848) To H. E. The Governor General.

Letter XXX

Yesterday H. E. The Governor General stated to me, Government had a
 difficulty to divide the two cases unitedly presented in my letter,
 namely that of my having suffered an outrage in being beaten, &
 that of my testimony borne to the French men, I therefore make here
 once more a clear statement only of my own case, anxious to
 show before England as well as in the face of the whole of Christ-
 endom, that I dealt uprightly with Lo-chow, and made every effort
 possible to avoid from it after calamities. If they come it is the man
 having own guilt & not mine. - In the present statement I shall
 therefore leave out what concerns the French missionaries, & keep
 hence on the ill conduct of the overlookers & watchmen, and only
 repeat my own grievance:

"On Sunday, November 1st 1847, about in the forenoon,
 the two French missionaries came to me saying, Doctor, come, let
 us go speedily to shu-li-fu (the Capital) to be present at

* or evening, as they said their expression was meant. They made scarcely any
 objection to the first alteration I requested to be made, but remained stiff
 on the second, which I absolutely insisted on.

Letter XXIX

...to go out anywhere, no spies are to accompany them neither before or behind, nor to the right or left, they are to cause no disturbance by driving, dispersing and frightening the people, neither are the shops to be shut. - We want sometimes a horse to ride for health's sake. The comprador will bring none. Let him be ordered to bring one either for sale or hire. A sedan likewise is required when I am tired.

The Chinaman Lin-qu-tse (of the Three-Lights-Temple) having received the master's orders begs to state to your Honor that the present Comproadors are exceedingly negligent; first, the rain drops through in our house, and it is now several days they were ordered to, repaired, ^{let it be} ~~repaired~~ ^{all things} go to ruin by the wet, & yet the comproadors would listen; 2^{ly} they had been repeatedly ordered to buy a horse for master, & several other articles, but they don't choose to obey. This is very unpleasant, and I have therefore specially to request your Honor to send other people, who should mind his business well, for which we shall be greatly obliged.

 I beg respectfully to mention to Y. E. that the day before yesterday Mr. Chang Yang-chang, on order of the Vice Governor General came to inform us that an act of piracy had been committed on one of the out-islands. I am very sorry for that, and beg to offer my condolence. I humbly conceive the matter requires all possible care, prudence & authority on the part of Government, and venture to suggest, if it meet with Y. E.'s approbation, that in that island the following regulations be fixed up (which I should be happy to translate for Y. E. into several European Languages):

1st Whenever a foreign ship arrives at any of the islands and anchors, the Captain of the said ship has to declare his & the ship's name, from whence he comes, & the names of the crew, & to this end to produce the ship's manifest before the chief magistrate of the island. 2^d If the ship stand in need of provisions, they should be sold down, the estimate made, and paid for before they are shipped. 3^d The islands being small, only some days provisions can be laid in, which may bring the ship to a neighbouring country; 4th The several governors of each island respectively are strictly to follow these regulations, in order that both the ship may be well treated & the inhabitants of this island respectively protected.

I beg Government may please to send these regulations as they may think proper, and at the same time request the foreign manufacturer left by the ship should be shown me, from which we might infer of what country the ship was.

With Compliments &c.

Letter XXXVI.
 As Government often gives us to understand the country was small, & the produce scanty, we have, during our two years & upward stay here lived upon a small quantity of animal food, & now

In the first notice we had of the affair, brought by Ichiro-uchi, and left in his own writing with the Chinaman. He case was declared by Government as one of piracy, committed by a foreign ship. When they received my letter, they tried to say it was not piracy, but that the ship took in cattle, possibly, for some manufactures they had left behind, and they wished the character not to be inserted, which was done. If I recollect right we inserted for it not. However, they appear to have taken no notice of my suggestion, to establish a way of regular intercourse with foreign ships, though they declared every year, about July August, some touched at Kumi-Sau.
