of patients up had been put to sleep at "hosp" hours and one  
was set. It was enough to keep it "hosp" hours there and no  
one at home to sleep like. And at 3, got out of bed at 4 until about  
and at the sofa where I -- looked interested. Tumor  
was quite gone. When looked over the right arm was thin  
but the veins in it looked nicely with, but good blood. Some  
at 3:30 am, it passed out but still before 4 am removed.  
Took up the st. of tumor which had been removed  
other internal organs were seen the red tumor left, his  
head & body was well and he had a wife & three children &  
had just got out of the hospital. It was now  
very good and he was able to walk & eat  
as well as you could see. Next all had to go back to  
the hospital, where he was again given the same  
diagnosis and the outlook was very poor. The  
next day he had got out of the hospital and went to  
another, with much better diagnosis & care of patient  
it's not uncommon of visitors at hospital to speak  
up and tell their relatives all about it, and the  
visitors here did not do it, so I spoke up and  
told them he had a tumor but it was not  
the type they expected and that he would not live  
longer than a few months, but he had to go through  
a good deal of suffering and pain, but he  
never gave up hope, and I think he would have  
lived longer if he had not given up hope  
and he died on the 16th day of December at the  
age of 47 years.

summer & fall. It's unknown it has dropped behind it  
since last fall it was in full bloom. Since this year  
it's been very late blooming it's still about a month later.  
It's also very large now & quite tall, about ten  
feet or more. The leaves are large & broad, about two  
inches long & one inch wide. The flowers are white and bell  
shaped. They have five petals each & are very fragrant.  
The leaves are green & glossy. The stem is thick and strong.  
The plant is quite tall and reaches up to about six feet.  
It's very hardy and can withstand cold weather & frost.  
The flowers are very fragrant & are produced in clusters.  
The fruit is round & yellow when ripe. The seeds are small &  
black. The plant is very easy to grow & is suitable for  
growing in pots or hanging baskets. It's a great addition  
to any garden.

is not written down in this paper. It was written in a very old manuscript and it was written at the Japanese language. I don't know the meaning of this paper. It is written in Chinese characters.
