Dear Mr. Minister:

The U.S. Government appreciated and has taken note of the views of the Japanese Government in your letter of November 21 on the treatment of American business interests in Okinawa. As you are aware, the views of the U.S. Government with respect to those business interests which should be considered now legitimately engaged in business in Okinawa have already been conveyed to the Japanese side in Washington, ~~without committing the Japanese position thereon.~~

Armin Meyer

November 21, 1969

Dear Mr. Ambassador:

The Government of Japan recognizes that with the return of Okinawa to Japanese administration the problems of protection and continuation of the basic economic interests of American firms or individuals now legitimately engaged in business in Okinawa must be equitably settled. I wish to assure you, therefore, that my Government will consider sympathetically, during the course of negotiations on transfer of administrative rights to Japan, any problems arising from the economic impact of reversion on these firms or individuals.

Sincerely yours,

Kiichi Aichi
Minister for Foreign Affairs
of Japan

The Honorable
Armin H. Meyer
American Ambassador
Washington, D. C.
