#### DEPARTMENT OF THE ARMY

## PACIFIC OCEAN DIVISION, CORPS OF ENGINEERS WEST PACIFIC APO BAN FRANCISCO 00331

28 June 1971

To All Contractors

Gentlemen:

In order to protect contracting parties from the consequences of possible yen revaluation now under consideration by the Government of Japan, the following clause will be included in the Special Provisions of all contracts to be performed in Japan awarded by the Corps of Engineers after 1 July 1971:

PAYMENTS TO CONTRACTOR - CONVERSION RATE

The contract price for the original contract work and any modification thereto shall be stated in United States dollars. Payment will be made in Japanese yen based upon the official rate of exchange current at the time of paymers; provided, however, that in the event the official rate of dollar/yen exchange in Japan as determined by the authorized agency of the Government of Japan varies more than one and one-half (1-1/2) percent at the time of payment from the rate of exchange current at the time the Contractor's quotation or bid was submitted and lf payment in yen at the specified rate of exchange would materially increase or decrease the cost of performance of the contract, an equitable adjustment in the contract price shall be made to reflect such increase or decrease prior to final payment under the contract."

This clause will permit us to negotiate a fair and reasonable adjustment in contract price should yen revaluation occur.

17 1.43%

I assure you of the cooperation of the Corps of Engineers in this matter, and look forward to our continued harmonious business relationship.

Sincerely yours,

FRANKLIN R. DAY

Colonel, Corps of Engineers

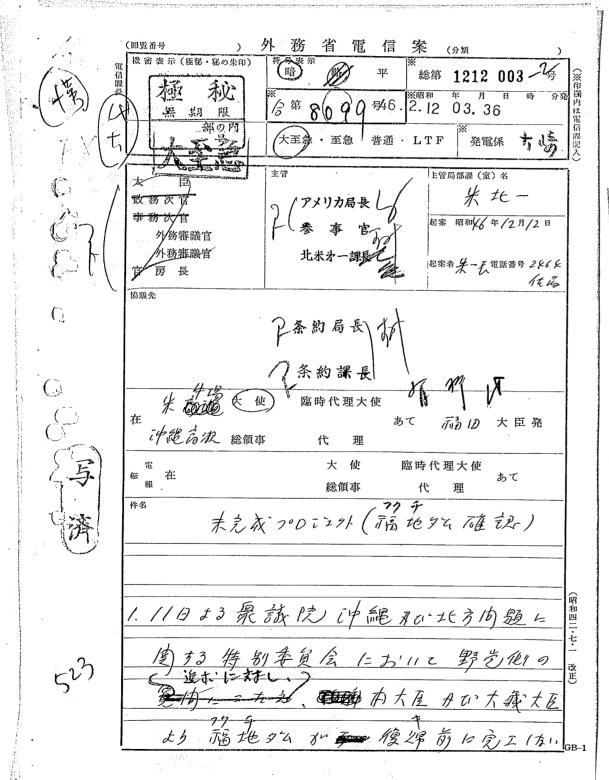

Deputy Division Engineer, West Pacific
