Decision Concerning the Allotment of Expenses Required for the Operation of the Advisory Committee

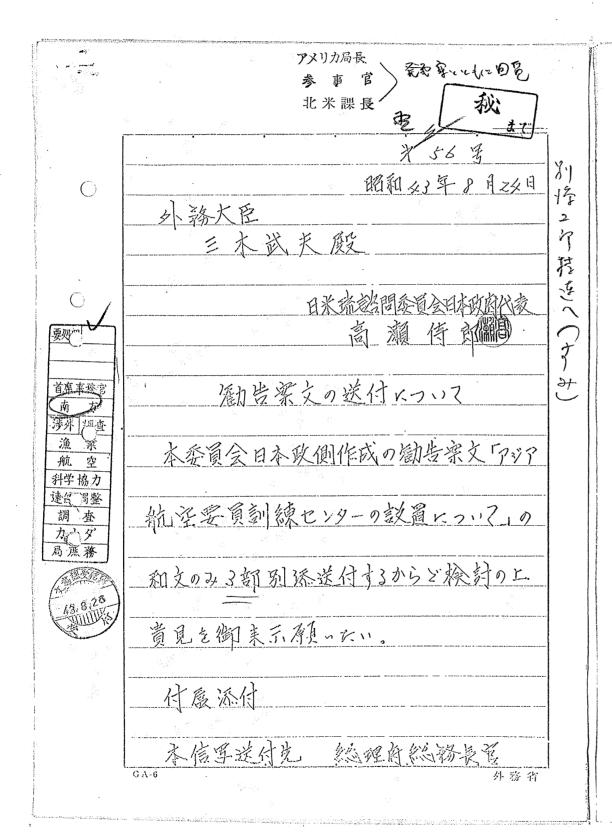

1. Amount to be shared by the three governments, the method of allotment and
the administration of expenses (hereinafter referred to as "common expenses")
required for the operation of the Advisory Committee shall be determined in
accordance with the following provisions.
2. The estimate of total cost of the common expenses shall be limited for the
period of 1 March 1968 - 30 June 1969, and necessary expenses for the period
thereafter shall be deliberated and determined by the three representatives
of GOJ, US and GRI.
3. The total amount of common expenses for the period determined in the
first part of paragraph 2 shall be \$
4. The three governments concerned shall share common expenses mentioned in
the preceeding paragraph in accordance with the attached distribution list.
In this case, the U S, GOJ and GRI shall defray their share of expenses in

- In this case, the U S, GOJ and GRI shall defray their share of expenses in cash and in kind. However, the shares of expenses in cash and in kind already expended by the three governments shall be considered as having already contributed their shares and the amount thereof shall be deducted from the amount to be contributed.
 - 5. The shares of expenses contributed by the three governments shall be administered by the Joint Secretariat of the AdCom and its director shall be appointed and responsible for receipts and outlay of expenses.
 - 6. Each of the three representatives of the AdCom shall designate one person from among the members of his element to report to the AdCom.

- 7. The designated representatives shall regularly seek for reports from the Director of the Joint Secretariat concerning the situation of receipts and outlay of a share of expenses and audit the administration of expenses to ensure the propriety thereof.
- 8. If there exist any differences in the amount of expenses contributed by each of the three governments during the period of 1 March 1968 30 June 1969, such differences shall be adjusted in the share of expenses after July 1969.
 - 9. The contribution of a share of expenses by the three governments shall be made quarterly in accordance with the request for submission of a share of expenses issued by the Director of the Joint Secretariat at the beginning of each four quarters.
 - 10. The Director of the Joint Secretariat shall report to the Governments of Japan, the United States and the Ryukyu Islands, concerning the situation of the income and expenditures, through their representatives to the AdCom, by the end of July 1969.

ADVISORY COMMITTING TO THE RIGH CONDISCIONED OF THE RYCHYU ISLANDS Name, Ckinowa

23 August 1986

MEMORANDUM FOR: THE HIGH COMMISSIONER OF THE RYDKYU ISLANDS

 \bigcirc

SUBJECT: Improvement of Teacher Training and Promotion of Personnel Exchange

Recommendation No

- 1. The advancement of pupils' academic achievement, in which there are considerable differences in standards compared with Japan proper, depends primarily on the improvement of teaching techniques and of material conditions such as school facilities, etc.
- 2. As a result of a review of the composition of teaching personnel in Okinewa, the AdCom agreed that it is necessary to strongly promote broard-range and ample training for incumbent teachers together with promotion of the broad-range personnel exchange in order to accomplish the enhancement of teachers' volition to teach through proper assignment of teachers in each school, with special emphasis on the necessity of making efforts to assign outstanding teachers to schools in isolated areas and also efforts to increase the number of educators from Japan proper who are being sent to train Ryukyuan teachers.
- 3. The AdCom further agreed that, in order to effectively promote the above measures as a part of the identification of educational standards of Japan proper and Okinawa, it is necessary for the GRI to take the following measures with ecoperation of the GOJ.
- c. To expedite the completion and utilization of the educational research center currently under construction.
- b. To develop policies to intentionally promote, from a Ryukyu-wide standpoint, the training of teachers as well as the exchange of teaching personnel.

4. The AdCom	therefore rece	nmends that	the Righ	Commissioner	take	nppropriut

Þ

ADVISORY COMMITTEE TO THE HIGH COMMISSIONER OF THE RYUKYU ISLAMDS Naha, Okinawa

23 August 1968

MEMORANDUM FOR: THE HIGH COMMISSIONER OF THE RYCKYU ISLANDS

SUBJECT: Expansion of Upper-Secondary Education

Recommendation No

- 1. A developing society demands that students be afforded the opportunity to receive an upper-secondary (above junior high but below college level) education, in accordance with their abilities. However, despite the fact that the senior high school applicant rate in Ckinawa is quite high, the entrance rate is very low when compared to the prefectures of Japan proper.

 Accordingly, it is very difficult to enter a high school. In other words, this fact indicates that upper-secondary education has not been fully developed to meet the demands of society. This is also indicated by taking due consideration of the fact that the present period is one of a sudden increase in the number of students due to the so-called "post-war baby boom" and the increased level of incomes in Okinawa.
- 2. Accordingly, the AdCom agreed that it is necessary to ease quickly the difficulty of entering a high school in Okinawa and to work out a plan to develop upper-secondary education to the level of Japan proper. The AdCom further agreed that, in order to accomplish this, it is necessary for the GRI, with the cooperation of the GOJ, to develop the following measures.
 - a. The measures to expand high school installations and equipment, to increase the number of teachers, and to work out a plan of diversified educational methodology and contents for students with a wide range of scholastic and vocational aptitudes.
 - b. The measures to increase the opportunity for juvenile workers to receive high school education.

The AdCom further agreed that there is necessity to take measures to convert the Trade and Vocational Institutes (Sangyo Gijutsu Gakko) and the Commercial Institute (Sangyo Jitsumu Sanmon Cakko) currently established as government Sho miscellaneous schools into high school institutions and so on in consideration of the consolidation of vocational training institutions.

3. Therefore, the AdCom recommends that the High Commissioner take appropriate measures for realization of these matters.

Status Report of the Education Subcommittee

-(23. Aug. 1968)

(Note: * indicates matters also contained in the report of the Identification Survey conducted by GOJ)

- 1. As a result of the consideration of the status of the spread of education and scholastic levels on the basis of information thereof, the subcommittee obtained the result as summarized in the attached.
- 2. Reference is made to the preceding paragraph as well as the report of the Identification Survey Team.
- (1) It was decided to draft the recommendations on the following items and to submit to the AdCom for its consideration.
 - a. Strengthening of School Installations and Equipment (Recom: 21 Aug)*
 - b. Strengthening the University of the Ryukyus (Recom: 21 Aug)*
 - c. Improvement of Teacher Training and Promotion of Personnel Exchange (Submitted: 23 Aug)*
 - d. Promotion of Upper Secondary Education (Submitted: 23 Aug)*
- (2) Furthermore, drafting of recommendations on the following items is being considered.
 - a. Promotion of Private Schools*
- b. Promotion of Social Education, Physical training (sports), and sound development of youths.*
- 3. The following items can be given as important questions concerning the identification of education, but it is necessary to consider about their contents and the timing of these recommendations. Justin
 - (1) Revision of the educational district system.*
 - (2) Revision of the system concerning educational personnel.*
 - (3) Consolidation of systems concerning the treatment of status of teachers.
 - (4) Improvement of the Okinawa scholarship system.*
- 4. The status on the consideration of education items listed in the Progress Report (dated 28 June 1968 and addressed to the HICOM) is as follows:

. 1

- (1) There is no need for recommendation on the Statistical Data in Educational Field (submitted by U S on 18 June).
 - #. Statistical data in educational field in Okinawa compiled almost in the same manner as in Japan proper.

11.

 \bigcirc

(2) There is no need for recommendation/school curricula (submitted by U S on 18 June).

- a. School curricula in Okinawa is based on those in Japan proper.
- Furthermore, textbooks used in Okinawa are approved by the Education Ministry.
- (3) Various Allowances for Teachers (submitted by U S on 18 June)*

Not suitable for immediate recommendation.

This is common question to other public service personnel and it is necessary to consider together with consideration of the salary system of public service personnel as a whole.

(4) Teachers' Salaries (submitted by U S on 18 June)

Not suitable for immediate consideration.

It is necessary to consider in consideration of the balance with other public service personnel.

(5) School Libraries (submitted by U S on 18 June)

This is incorporated in the recommendation, "Strengthening of School Installations and Equipment."

Furthermore, to take up only the question of school libraries in particular apart from the strengthening of other school installations and equipment is not appropriate from the viewpoint maintaining the balance.

(6) Identification of Standards in Off Islands Remote Areas Schools (submitted by U S on 18 June)*

Research and studies will be further continued hereafter.

- a. Off islands in Japan proper also lag behind.
- b. It is completely necessary to compare with the situation of educational expansion of off islands in Japan proper.

(7) Exchange of Teachers and Prefectural Municipal Employees (submitted by U S on 18 June)

The possibility of exchange of teachers and prefectural municipal emphyses with Japan proper will be further studied hereafter.

Regarding the increase in the number of teacher educators sent here from Japan proper, recommendation is being drafted to incorporate in the proposal concerning the Improvement of Teacher Training and Promotion of Personnel Exchange listed in paragraph 2 (1)c above.

Furthermore, delegation of teacher training from here to Japan proper and the delegation of teacher educators from Japan proper have been carried out under the technical assistance of GOJ each year.

- (8) Revision of Educational Districts (submitted by GOJ on 8 March)*
 - This will be considered as an important subject of the future.
- (9) Personnel Exchange (submitted by GOJ 8 March)
- This has already been recommended as "Promotion of the Exchange of personnel in Certain Fields" on 9 April.
 - (10) Exchange of Teachers of the Fisheries School and Agricultural Specialists (submitted by GOJ on 2 April)

This is being considered by GRI.

- 5. Among items listed in the report of the Identification Survey conducted by GOJ, items exclusive of the above mentioned items with an asterisk are as follows:
- (1) Consolidation of Mutual Aid system?

()

Public school Mutual Aid Association Law covering teachers of Okinawa has already been passed (it is expected to become effective on 1 July 1969).

Concerning the reciprocal portability of pensions between Mutual Aid Associations in Japan proper, considerations will be made together with the protability questions of Mutual Aid Associations of public service personnel as a whole.

- (2) Identification of Outer Organizations concerning Education
 - a. The matter concerning the Ryukyu Scholarship Association will be incorporated in the Improvement of the Okinawa Scholarship System listed under paragraph 3 (4).

2

- b. The matter concerning the private school promotion association will be incorporated in the promotion of Private Schools listed under paragraph 2 (2) a.
- c. The matters concerning the Okinawa School Safety Association and the Okinawa School Feeding Association are not appropriate for immediate recommendations and they will be further seriously studied hereafter.

ADVISORY COMMITTEE TO THE HIGH COMMISSIONER OF THE RYUKYU ISLANDS Naha, Okinawa

23 August 1968

MEMORANDUM FOR: THE HIGH COMMISSIONER OF THE RYUKYU ISLANDS

SUBJECT: Expansion of Upper-Secondary Education

Recommendation No

1. A developing society demands that students be afforded the opportunity

- to receive an upper-secondary (above junior high but below college level) education, in accordance with their abilities. However, despite the fact that the senior high school applicant rate in Okinawa is quite high, the entrance rate is very low when compared to the prefectures of Japan proper. Accordingly, it is very difficult to enter a high school. In other words, this fact indicates that upper-secondary education has not been fully developed to meet the demands of society. This is also indicated by taking due consideration of the fact that the present period is one of a sudden increase in the number of students due to the so-called "post-war baby boom" and the increased level of incomes in Okinawa.
- 2. Accordingly, the AdCom agreed that it is necessary to ease quickly the difficulty of entering a high school in Okinawa and to work out a plan to develop upper-secondary education to the level of Japan proper. The AdCom further agreed that, in order to accomplish this, it is necessary for the GRI, with the cooperation of the GOJ, to develop the following measures.
 - a. The measures to expand high school installations and equipment, to increase the number of teachers, and to work out a plan of diversified educational methodology and contents for students with a wide range of scholastic and vocational aptitudes.
 - b. The measures to increase the opportunity for juvenile workers to receive high school education.

The AdCom further agreed that there is necessity to take measures to convert the Trade and Vocational Institutes (Sangyo Gijutsu Gakko) and the Commercial Institute (Sangyo Jitsumu Senmon Gakko) currently established as government Sho miscellaneous schools into high school institutions and so on in consideration of the consolidation of vocational training institutions.

3. Therefore, the AdCom recommends that the High Commissioner take appropriate measures for realization of these matters.

MEMORANDUM FOR: THE HIGH COMMISSIONER OF THE RYUKYU ISLANDS

SUBJECT: Identification of Livestock Quarantine System

Recommendation No 7

- 1. The AdCom to the HICOM recognized that the present double quarantine system for the export and import of livestock between Japan and Okinawa is a great loss in time and expenses, and that this system should be changed to a single quarantine system from the view point of developing livestock industry as well as promoting identification between Japan and Okinawa. The AdCom thus reached the agreement that both the Governments of Japan and the Ryukyu Islands take measures necessary for this purpose.
- 2. Therefore, the AdCom recommends that the High Commissioner take appropriate measures for realization of these matters.

TAB A

MEMORANDUM FOR: THE HIGH COMMISSIONER OF THE RYUKYU ISLANDS

SUBJECT: Strengthening of School Installations and Equipment

Recommendation No 8

- 1. The AdCom has studied the identification of educational standards in Japan proper and Okinawa, particularly the strengthening of school installations and equipment, as proposed by the GRI Representative. It agreed that such identification is a basic precondition to the raising of the scholastic levels of Okinawan students that now lag behind those in Japan proper. The AdCom reached agreement on the following points:
- a. As to the installations, regular classrooms which are adequate for the number of classes are finally being provided, but the installation of special classrooms and rooms for administration remains far behind the level of Japan proper. In addition, gyms and swimming pools are almost non-existent. Further, it is necessary to greatly improve sanitation facilities.
- b. As to equipment, the gap with Japan proper is extremely great. With respect to such equipment as experimental instruments and books, a great effort is required to attain the comparable levels of Japan proper, giving due consideration to the past practice of depending a great deal upon parents' contributions.
- c. In addition, the effectiveness of these installations and equipment seems to be diminished in part, because of unbalanced and unsystematic coordination. Further consideration should be given to beautifying school campuses and to the general educational environment, because of their impact on students' sentiments and their eagerness for learning.
- d. For the promotion of identification of Okinawan educational standards with those of Japan proper, these installations and equipment should soon be provided, and to do this it is necessary for the GRI, with appropriate assistance from the GOJ, to prepare an annual plan for the purpose of strengthening installations and equipment and increasing their number in a well-balanced manner. As an immediate goal, it will be appropriate to match the level of attainment of similar prefectures in Japan proper.
- 2. Therefore, the AdCom recommends that the \hbox{HICOM} take appropriate measures for realization of these matters.

High Commissioner

21 August 1968

MEMORANDUM FOR: THE HIGH COMMISSIONER OF THE RYUKYU ISLANDS

SUBJECT: Strengthening the University of the Ryukyus

Recommendation No 9

1. The University of the Ryukyus, as a government institution, plays a vital role in providing higher level academic studies and education for the Ryukyu Islands. It is necessary for the university to be strengthened with a view to achieving the level of the national universities in Japan proper. However, as is pointed out in the report of the Japanese Government Identification Survey Team, there is a considerable lag in educational installations and equipment, the set-up for academic studies, and the strengthening of the faculty, even though a Health Science Department is now being established. In addition, no definite plan for future installations and equipment has yet been developed.

2. Accordingly, there is an urgent need to promote the strengthening of the University of the Ryukyus in order to eliminate the educational gap and to realize educational identification between Japan proper and Okinawa. The AdCom recognizes that the University of the Ryukyus should, for the time being, aim to attain the levels set forth in Standards for Establishment of Universities (Education Ministry Ordinance No. 28 of 1956). Moreover, endeavors should be made to exceed these levels and reach the levels of national universities in Japan proper. The university should be composed of departments and courses, etc., which will in size and structure meet the requirements of the Ryukyus for the future. The AdCom agrees that the GRI, with appropriate aid from the GOJ, should prepare and implement an annual plan for the strengthening of the University of the Ryukyus.

3. Therefore, the AdCom recommends that the High Commissioner take appropriate measures for realization of these matters.

ADVISORY COMMITTEE TO THE HIGH COMMISSIONER OF THE RYUKYU ISLANDS Naha, Okinawa

21 August 1968

PRESS RELEASE

The Advisory Committee to the High Commissioner of the Ryukyu Islands made three recommendations today to the HICOM. The recommended items are as follows:

- 1. Identification of Livestock Quarantine System (Recommendation No. 7)
- 2. Strengthening of School Installations and Equipment (Recommendation No. 8)
- 3. Strengthening the University of the Ryukyus (Recommendation No. 9)

With respect to Recommendation No. 7, the AdCom recognized that the present double quarantine system for the export and import of livestock between Japan and Okinawa results in great losses in time and expenses and agreed that this system should be changed to a single quarantine system from the view point of developing livestock industry as well as promoting identification between Japan and Okinawa.

With respect to Recommendation No. 8, the AdCom agreed that the strengthening of school installations and equipment is a basic precondition to the raising of the scholastic levels of Okinawan students that now lag behind those in Japan proper and that it is necessary for the GRI, with appropriate assistance from the GOJ, to prepare an annual plan for the purpose of strengthening installations and equipment (to match the level of attainment of similar prefectures in Japan proper as an immediate goal) and increasing their number in a well-balanced manner.

HCRI-AdCom

that there is an urgent need to promote the strengthening of the University of the Ryukyus in order to eliminate the educational gap and to realize educational identification between Japan proper and Okinawa, that the University of the Ryukyus should, for the time being, aim to attain the levels set forth in Standards for Establishment of Universities (Education Ministry Ordinance No 28 of 1956). Moreover, endeavors should be made to exceed these levels and reach the levels of national universities in Japan proper. The AdCom therefore agreed that the GRI, with appropriate aid from the GOJ, should prepare and implement an annual plan for the strengthening of the University of the Ryukyus.

The HICOM concurred in these recommendations and requested the Representatives to convey to their respective governments these approved recommendations.
