体化、工業振興および輸出振興各勧告案文の採択を急がれたい。出来ればこれを一括して新聞発表することとしては如何との意見を述べたが、シヨットより上記4項目については米側内部調整の早急取りつけに困難あり、決定の日取りは明らかとし得ないとして難色を示した。一方瀬長より、国果有地の取扱の勧告は現地諸般の事情から可及的速やかに発表して欲しく、合同事務局を以てプレスリリースを各新聞社に郵送せしめるとともに、債向に対し「アドコム」は即応の体制にあること明らかとしおくこと然るべしと述べたので、各代表同意もつとめ認めこれを了承した。

3. シヨットより、小委員会において既に検討を終えたプログラクレポート近日中に発表したい旨を発言した。(3)

Outline for Advisory Committee Response on 25 July to Economic Subcommittee on It's Report of 17 July 1969 on the Future of the Okinawan Economy

1. The Subcommittee is to be commended for taking this first step toward the development of a long term economic plan for the Ryukyuan Islands.

2. Many of the ideas stated in the report are particularly meritorious.

Examples are the need for immediate implementation (2.2), the placing of the focus of activity and responsibility with the GRI (2.3), the definition of a desirable economic plan as a simple guide for GRI policy makers (2.7), and the desirability of avoiding a "building block approach" to planning (2.8). The Committee has very carefully considered these and other ideas included in the report.

3. The Committee concluded that the Subcommittee placed major emphasis in its recommendations on the close involvement of the Subcommittee in the preparation of a development plan by the GRI. While the Committee favors the closest possible working relations between Subcommittee members and appropriate counterparts in the GRI, it has concluded that Subcommittee involvement in the preparation of the GRI plan is not feasible. Similarly, the Committee holds the view that it would not be desirable for the Committee to attempt to correct the "prevailing pessimism in government and private circles" about the future of the Okinawan economy. Such correction should be self-generating and should stem from an objective presentation of the positive aspects of the future of the economy. A well prepared plan of the type envisaged by the Subcommittee could well serve this purpose, depending on the weight of its conclusions.

4. The Committee desires that the one forward step represented by the Subcommittee's report should be immediately followed by others. The momentum now generated should be continued and even accelerated. The Subcommittee is urged to develop into a final report for the Committee the substance of Conclusion 3,

that is, prepare a broad economic plan that will state specific actions that should be taken and problem areas that should be analyzed. In the Subcommittee's own words, the objective should be to state "where the economy should go and what steps are necessary to get it there." The report may also contain proposals for Advisory Committee recommendations.

5. To be of maximum usefulness to the GRI planners, to whose attention the report would be primarily addressed, the Subcommittee's economic plan should be completed not later than the middle of October; it may be submitted to the Committee at any time prior to that date. Once it has been received and studied by the Committee, attention would then be given to determine what proposals might be feasible and desired by the GRI, to help carry out the plan's objectives.

要請あり
DRAFT

Thank you also for your offer to come to Naha at an 28 July 1969

Dear Mr. Suzuki: Additional questions to ask about the report. Should this
Your report entitled "On the Financial Institutions in the Okinawas"
and your "Recommendations Concerning the Transfer of the Assets of RDLG to
GRI" arrived by post and in fine condition late in the day of 23 July. On
behalf of my colleagues on the Advisory Committee and myself, I want to thank
you very much for the effort and thought that we know went into this study.

The Committee fully appreciates the difficulties that were inherent in the
task set for you by the Committee's recommendation of 9 April 1968. Never-
theless, you have carried out this task with commendable diligence and with an
impressive grasp of the manifold problems involved in an undertaking of this
nature.

an
It is established Committee procedure to regard all matters before it as
not for public use?
~~classified~~ until they are made public by the Committee. (This means that all
stages of the work required to produce a recommendation are classified until
such time as the Committee agrees on a public disclosure.) Consequently, your
report on "On the Financial Institutions in the Okinawas" will have to remain in
the this category *of not for public use* until we have had a better opportunity to study its content. (As far
as its availability to other government agencies is concerned, this takes place
in practice in the normal course of the Committee's work.) The Committee *hopes* may
decide to make it available to the public *at an early date, however, and* as well. I will let you know when this
paper step is to be taken. Your "Recommendations", by contrast, is likely to be kept
in a classified state until the Committee has completed its work on the RDLG.
When this stage will be reached I cannot forecast at the moment.

In the event of inquiries from the press about the report, the Committee
will confirm that it has been received. However, no information will be provided
about the content. It is our suggestion that you follow the same procedure.

大分県
1969.7.28

Thank you also for your offer to come to Naha at anytime should the
Committee have additional questions to ask about the report. Should this
need arise, we would inform you in good time.

Sincerely yours,
