Subjects to be Referred to Subcommittees for Development of Proposals to be Considered by the Advisory Committee Based on Listing Developed by the General Administrative Subcommittee

- 1. General Administrative Subcommittee. It is suggested that the Administrative Subcommittee arrange the following suggestions in the order of importance and then proceed to give the Committee appropriate proposals for action on them. At a later date, perhaps at the time of the proposed Sato/Nixon meeting, it would be desirable if the subcommittee could provide the Committee with an estimate of the time required to carry these proposals through the recommendation stage.
 - a. Improvement of River Management (GOJ)
 - b. Revision of Laws on Expropriation and Urban Planning to Make Them Similar to Those of Japan

- o. Preparation for Change from the Right Traffic to the Left (GRI)
- 2. Education Subcommittee. Because of the very great amount of work already done by this Subcommittee on the proposal for "Adjustment and Identification of Permanent Family Register." (GOJ) it is recommended that no change be made

in this assignment. Identification of Qualifications and Licenses (GRI) might also remain with this subcommittee. The suggestion concerning Identification of Public Corporations and other Government sponsored organizations (Scholarship Association, War Bereaved Family Association, etc.)(GRI), should be the responsibility of the Education Committee.

- 3. Social Welfare Subcommittee. It is suggested that the following suggestions be referred to the Social Welfare Subcommittee: Annuity Benefits for Those Who Have Been Continuously Employed Since Before the War (GRI); Transfer of the Status of Government Employees (GRI).
- 4. Economic Subcommittee. The following suggestions would then logically fall to the Economic Subcommittee:
 - a. Identification of the National Tax Systems (GOJ)
 - b. Transfer of Public Monopoly Business (Tobacco, salt; etc.) (GRI)
 - c. Omission of a Pilot Boat for Regular Lines (GOJ)
 - d. Identification of Handling High Pressure Gas (GRI)
 - e. Improvement of Handling Explosives (GRI)
 - f. Strengthening and Identification of Meteorological Activities (GRI)

All subcommittee assignments would remain subject to possible change at a later date, as decided by the Committee, to assure equitable distribution of workload to the extent possible and maximum efficient utilization of resources.
