TALKING PAPER

At the meeting of the Consultative Committee on Okinawa held on May 9, 1966, agreement in principle was reached between Japan and the United States on the issuance and delivery in Okinawa of Japanese passports as well as on the issuance by the Japanese Government of travel documents between Japan proper and Okinawa to the residents of Okinawa. As regards the concrete procedures to be adopted for the implementation of the above agreement the Government of Japan wishes to obtain the United States' concurrence to the following.

- (1) Japanese passports and certificates of identity (travel document it Japan proper) may be issued by the Japanese Government Nampo Lisison Office (JGLO) not only to the residents of Okinawa but also to Japanese nationals with the permanent domicile in Japan proper for the convenience of the latter who live or travel in Okinawa.
- (2) In connection with above (1), the residents of Okinawa (persons who have the permanent domicile in Okinawa and live there) alone shall need exit permit from the United States Civil Administration of the Ryukyu Islands (USCAR) prior to the issuance of a passport and a certificate of identity, and persons who have the permanent domicile in Japan proper shall

be able to depart from Okinawa in accordance with the existing procedures for exit from Okinawa applicable to non-Ryukyuans and, therefore, shall need no prior permit from USCAR.

- (3) Since Japanese passports are issued in pursuance to Japanese laws and regulations, no passport might be issued and delivered to any person who may come under one of the categories listed in Clause 1, Article 13 of the Passport Law, even if he is granted exit permit from USCAR.
- (4) Official passports are issued, in principle, only to persons preceeding abroad on business of the State. So, in the case of local public entities of Japan proper, official passports are issued only to governors of prefectures and other officials when they are entrusted with business of the State. The above rule shall be applied, in principle, also to the officials of the Government of the Ryukyu Islands (GRI). Although the actual application of the rule may be made flexible depending upon individual cases, ordinary passports shall ordinarily be issued to the officials of GRI who do not qualify for the issuence of official passports by the above rule even when they travel on business of USCAR or GRI. We may suggest that, if necessary, either USCAR or GRI may consider it appropriate to give them a paper which is to certify their official status. (This paper shall not be considered as a travel document.)

()

- (a) application for issuance of a passport and the delivery procedures.
 - (1) A resident of Okinawa proceeding abroad will first obtain from USCAR an exit (and re-entry) permit.
 - (11) Then, the above-said resident of Okinawa, in applying for issuance of an ordinary passport, will submit to JGLO or its branch office a written application for issuance and delivery of an ordinary apsaport along with the permit (or its copy) from USCAR.
 - (iii) JGLO will issue and deliver a passport to the applicant on the basis of the application.

 Notice from USCAR or GRI of exit (and re-entry)

 permit shall be put down on the passport prior to the delivery.
 - (iv) The Government of Japan wishes to be informed, for its own information, of the contents of the prior exist and re-entry permits which the Government of the United States plans to issue to the residents of the Rynkyu Islands and of the contents of the notice which is to be put down on a passport.

The Government of Japan deems it convenient, for the simplification of the procedures, if notice from USCAR concerning exit and re-entry to be put down on a passport be given by attaching to the passport the exit and re-entry permits, in the same manner as is being followed with respect to certificates of identity issued and delivered by the Prime Minister's Office for persons going to Okinewa.

- (b) If the applicant is unable to present himself in person at the JGLO or its branch effice in applying for issuance of a passport, the mayor or headman of the city, town or village of Okinawa where he lives or some other appropriate authorities may be requested to identify with the applicant his picture submitted to JGLO. The detailed identification procedures shall be provided for by the Ordinance of the Ministry of Foreign Affairs.
- (c) Those officials of GRI who submit an official document certifying that they proceed abroad on business of GRI may not be required to submit exit (and re-entry) permits from USCAR in applying for a passport.

()

(')

- (d) Application for issuance and delivery of a certificate of identity and the delivery procedures.
 - (i) An applicant will submit a written application for issuance of a certificate of identity and a written application for exit and re-entry permits to JGLO or its branch office.
 - (11) JGLO will forward to USCAR the written application for exit and re-entry permits.
 - (iii) USCAR will issue exit and re-entry permits on the basis of the written application for exit and reentry permits and forward them to JGLO.
 - (iv) JGIO, upon receiving the exit and re-entry permits. will issue a certificate of identity and deliver it to the applicant at JGLO or its branch office.
 - (v) The Government of Japan, as in the case of passports, wishes to be informed of the contents of the prior exit and re-entry permits which the Government of the United States plans to issue to the residents of Okinawa and of the contents of the notice which is to be put down on a certificate of identity.

The Government of Japan deems it convenient. as in the case of passports, if notice from USCAR of exit and re-entry to be put down on the certificate of identity be given by attaching the said exit and re-entry permit to the certificate of identity.

(e) The Government of Japan intends to make the duration of validity of certificates of identity issued by the Government of Japan be four years. It is requested to the Government of the United States to grant multiple exit and re-entry permit valid for four years to students and business travellers in order to afford them the same conveniences as heretofore.

The Government of Japan would welcome it, if the Government of the United States would, on this occasion, give consideration to granting multiple exit and reentry permit not only to students and business travellers but to any persons proceeding to Japan proper in order to simplify the exit and re-entry procedures.

(6) It is requested that establishment of three branch offices of JGLO be agreed to, each in Nego, Miyako and Ishigaki, for the purpose of conducting passport (and certificate of identity) business.

Background.

- 1. Two typhoons struck the Ryukyu Islands in the period September 1 through 5, 1966, causing extensive damage, particularly in Miyako Gunto. On September 8, the High Commissioner declared the damaged areas as major disaster areas eligible for assistance under the emergency disaster programs of the Government of the Ryukyu Islands and the United States Civil Administration of the Ryukyu Islands.
- 2. Emergency food, flashlights, canvas for shelter, and other supplies and equipment were dispatched by the Government of the Ryukyu Islands and USCAR to Miyako as soon as the weather permitted. Survey teams have assessed damages and developed resource requirements for both immediate needs and longer range rehabilitation measures. The immediate measures which have been taken are:
- A. The Government of Japan, through the Nampo Doho Engo Kai, is furnishing lumber, coment, and other building materials, seed potatoes, school textbooks, and other items.
- B. USCAR has made available to the Government of the Ryukyu Islands its annual disaster relief fund of \$200,000. The major portion of these funds will be used along with the Covernment of Japan's donated building materials to provide temporary shelters for the homeless, and for such other high priority emergency measures as the restoration and repair of roads and airfields.
- C. Private donations of over \$100,000 are being used for the provision of urgent necessities of daily life such as hedding, clothing and kitchen utensils.
- D. The Government of the Ryukyu Islands is reprogramming its Fiscal Year 1967 budget to take care of other emergency requirements and to begin work on longer term rehabilitation projects. Funds of the Central Bank for Agriculture, Forestry, and Fisheries, and the People's Finance Corporation are also being made available for emergency loans, as well as longer term rehabilitation.
- E. USCAR and the Government of the Ryukyu Islands have arranged for the Ryukyu Development Loan Corporation to reprogram \$500,000 for loans to homeowners to rebuild houses as typhoon resistant structures. Since the Ryukyu Development Loan Corporation's

resources are already over-committed and it has outstanding loans of about \$20 million for housing throughout the Ryukyus, the United States and the Government of the Ryukyu Islands would welcome an offer by the Government of Japan of assistance, which would be most timely.

B. Requested Government of Japan Aid.

1. Typhoon-Resistant Housing.

A. The September typhoons destroyed 3,530 houses, and seriously damaged another 6,541. The Government of the Ryukyu Islands estimates 2,000 homeowners will wish to borrow funds to construct typhoon-resistant housing. The Government of the Ryukyu Islands program will provide 25-year loans of \$1,500 to each participant. The loan will be used to construct a 10-tsubo house of a standard ferroconcrete design.

B. It is proposed that the Government of Japan contribute by providing to the Covernment of the Ryukyu Islands cash grants of \$2.5 million as follows:

> (1) Japan Fiscal Year 1966 supplemental \$1.0 million appropriation

> (2) Japan Fiscal Year 1967 appropriation 1.5 million TOTAL -----\$2.5 million

- C. The Government of the Ryukyu Islands will enact legislation in January 1967 to establish a special account for the receipt of Government of Japan funds. Repayments will be held for use in rehabilitation from future disasters.
- D. The Government of the Ryukyu Islands, through USCAR, will request funds in increments as needed to meet loan requests.
 - 2. Increased Capital for the Central Bank for Agriculture, Forestry, and Fisheries.
- A. The typhoon damage has resulted in a large increase in loan requests to the Central Bank for Agriculture, Forestry, and Fisheries. Funds are being reprogrammed within its loan program to meet high priority requirements. In October, for example, it is estimated that over \$1 million will be loaned for disaster relief.
- B. The Government of the Ryukyu Islands estimates that \$1 million will be needed by the Central Bank for Agriculture, Forestry, and

Fisheries in addition to the \$1 million to be requested in the regular Japan Fiscal Year 1967 Aid Program. It is proposed that these additional funds be provided in two increments of cash grants of:

> (1) Supplemental Japan Fiscal Year 1966 appropriation

\$0.5 million

(2) Japan Fiscal Year 1967 appropriation

0.5 million

TOTAL -----\$1.0 million

3. Funds for Loans to Small Enterprises.

A. Requests for loans by the Peoples Finance Corporation have also increased. A further cash grant of \$250,000 is requested in the Japan Fiscal Year 1967 appropriation.

4. Punds for rebuilding of Schools and Public Works Facilities.

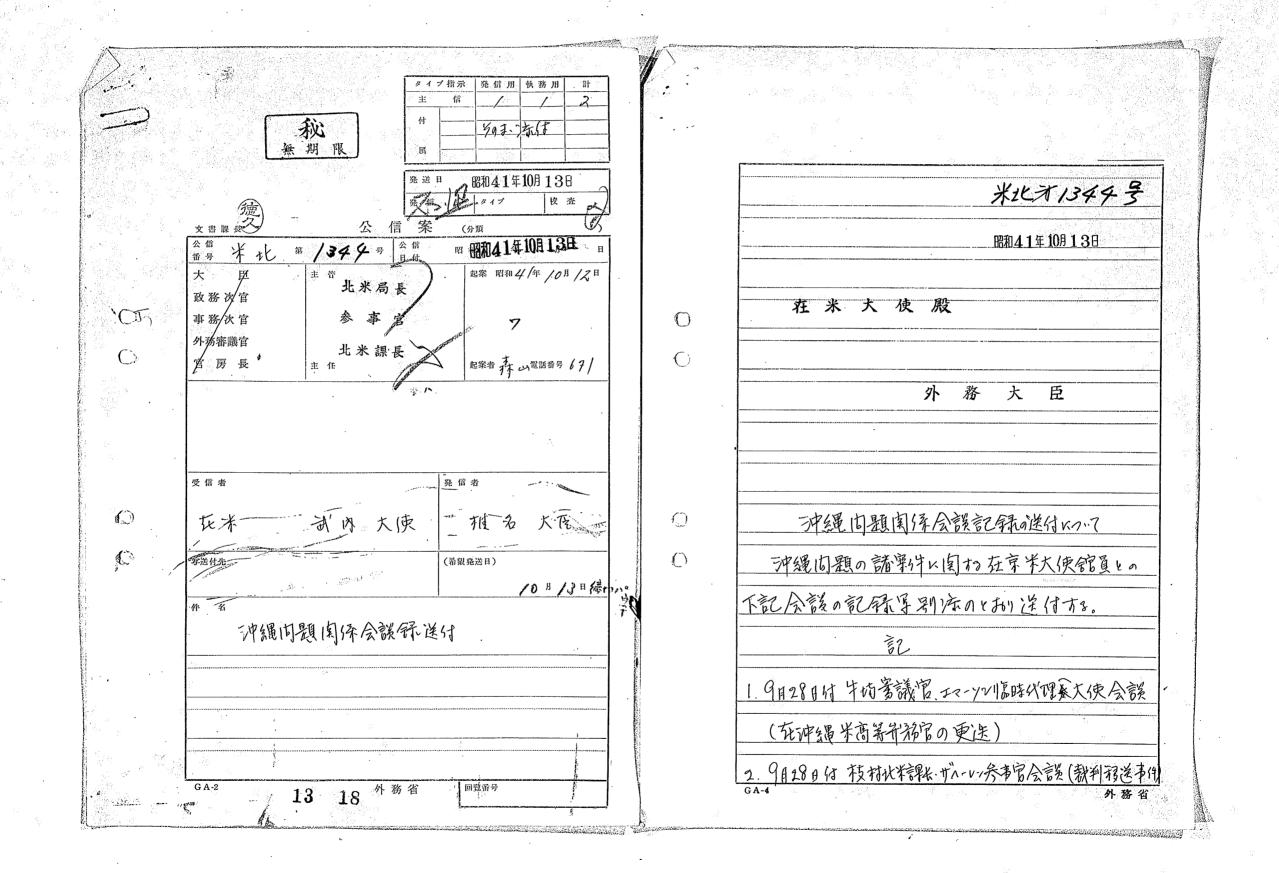

A. Considerable damage was suffered by school facilities and other public works. As stated heretofore, the emergency requirements for repair to roads, airfields, and office buildings have already been funded. Also, the Government of the Ryukyu Islands has reprogrammed its Fiscal Year 1967 budget to begin restoration and rebuilding. The following assistance is needed from the Government of Japan in its Japan Fiscal Year 1967 budget for the following projects:

| (1) School Facilities | \$340,700 |
|-------------------------------|--------------|
| (2) Retaining Walls | 150,000 |
| (3) Ports and Piers | 72,000 |
| (4) Municipal Dwelling Houses | 118,400 |
| | gê. |
| | 64 O 1 1 O O |

TOTAL----- \$681,100

5. The United States request, as broken down between funds for assistance which it would be desirable to have included in the Japan Fiscal Year 1966 supplementary budget and funds which could be left to the Japan Fiscal Year 1967 budget, can be summarized as follows:

A. Japan Fiscal Year 1966 supplemental \$1,500,000 2,931,100 B. Japan Fiscal Year 1967 appropriation
